An entry level course
to learn dental
implant assisting

Princess Elizabeth
Dental Training Centre

TOPICS INCLUDE:

- Introduction to dental implants and terminology
- Information gathering at consultation appointment
- Implant placement overview
- Aseptic technique - Infection Prevention and Control, ADA&C Compliance
- Room preparation and take down
- Patient preparation and draping
- Surgical scrub-in and gowning
- Post-operative patient care
- Record keeping templates
- Supply ordering

Learning Objectives:

Dental implants are the treatment of choice to replace missing teeth. This course is designed to prepare dental assistants to be effective, knowledgeable, and confident members of the surgical team.

This course is intended for registered dental assistants with limited implant experience.

Participants will learn techniques on how to assist with dental implant procedures.
